THE BRITISH COLUMBIAN.

No. 27, Vol. 4. NEW WESTMINSTER, WEDNESDAY, MAY 18, 1864. Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, MAY 18, 1864.

THE POSTAL ORDINANCE, 1864.

This Bill, which passed through the Legislative Council and received the sanction of His Excellency, imposes a uniform Colonial rate of six pence upon single letters and six pence on each newspaper. Respecting the rate upon letters we think there is little room for complaint; for although sixpence may seem somewhat high for conveyance of a letter from New Westminster to the nearest Post-office above yet it is very reasonable when applied to Cariboo. There are many arguments in favor of a uniform rate, and as the new rate is a boon to the Colony, as a whole, those residing in the towns on the Lower Fraser should not complain; and even to these places it is only a penny more than under the old system, while to all parts of the Colony above Douglas and Yale there is a very great reduction. The following are the old rates of postage:

From New Westminster to Douglas, 5d; Hope 5d., Yale 5d., Lytton 1s., Lillooet 1s., Williams Lake 2s., Quesnelle 3s, Antler 4s; Douglas to Hope 5d., Yale 5d., Lytton 1s, Lillooet 1s., Williams Lake 2s., Quesnel 3s., Antler 4s; Hope to Yale 5d., Lytton 1s., Lillooet 1s., Williams Lake 2s., Quesnel 3s., Antler 4s; Yale to Lytton 1s., Lillooet 1s., Williams Lake 2s., Quesnel 3s., Antler 4s; Lytton to Lillooet 1s., Williams Lake 2s., Quesnel 3s., Antler 4s; Lillooet to Williams Lake 2s., Quesnel 3s., Antler 4s; Williams Lake to Quesnel 1s., Antler 2s; Quesnel to Antler 1s.

But while the new Bill, so far as the transmission of letters is concerned, is undoubtedly a step in advance it is in its application to newspapers two steps in the other direction. Under the old system the rates of postage upon newspapers were as follows:—From New Westminster to Douglas, Hope and Yale 2½ pence, to Lytton, Lillooet, Williams Lake, Quesnel and Antler 5 pence, while under the new system they are subject, as we have said, to a uniform rate of sixpence. When applied to Cariboo this rate may not appear altogether unreasonable, but when applied to the lower portions of the Colony it simply amounts to a prohibition. Upon a semi-weekly paper published here it amounts to $13 a year, being nearly twice the subscription price, while upon a daily paper it would amount to $44.25c., being nearly five times the price of the paper. And in its bearing upon papers coming into the Colony it is even worse, as they are subject to an extra penny. Thus a daily paper published in Victoria and transmitted to Hope, Yale or Douglas would pay annually in postage alone $51.25c.! While in all civilized countries legislation has for the last century been directed towards the free dissemination of information amongst the masses our assembled wisdom would appear to deem it their duty not only to exclude the Press from the Legislative halls but, as far as lies in their power, to cut off all intercourse between it and the people; for it is not difficult to see that such a rate of postage as this new Ordinance imposes is nothing short of absolute prohibition when applied to the greater part of the Colony. One would have imagined that the embryo Legislators of British Columbia would not have felt themselves above copying after other countries to some extent. And, although there are Colonies and territories not altogether unsimilar to this in many respects, nowhere do we know of a similar legislation against the circulation of printed information such as we have recently experienced in this Colony. In England, Australia, the Eastern British American Provinces, the States of America and California, the postage upon newspapers is merely nominal. In Canada there is a uniform rate of one cent, and if the postage is paid in advance it is less than half that rate. Thus the postage, if paid in advance, only comes to six cents per quarter upon a weekly paper. It appears altogether unaccountable that with such examples before us the attempt should be made in this Colony to subject newspapers to a rate of postage which, if enforced, must have the effect of closing Her Majesty's mail bags against them altogether.

But, bad as this must appear in the eyes of all liberal minded men there is yet a more intensely illiberal and arbitrary feature in this Bill. We allude to the clause making the payment of this enormous rate absolute, *whether the mail be used as the medium of transmission or not!* Whether newspapers are sent as express matter *or even as freight, every copy must pay six pence sterling!* This would be the effect of the Bill—nay, we have the assurance of its author that such was the *intention* of the Bill—if enforced in its present shape; but, having the assurance of the Government that this obnoxious feature will be rendered inoperative we will, for the present, content ourselves with saying, shame upon the members of the Council who understood and intended this clause! We are aware that there are one or two men in our Legislature who have no love for the Press—who would be delighted to crush it out of this Colony; and we can only account for the Government and the liberal members allowing such a thing to pass by the fact that this Bill is one of a number which were rushed through in a great hurry near the close of the session. The reason why we have not drawn public attention to this Bill sooner is that having been in correspondence with the Government respecting the outrageous clause making the payment of the postage upon newspapers absolute whether they pass through the mail or not, we did not feel ourselves justified in writing upon the subject while that correspondence was going on. It will be gratifying to the public to know that the effects of this feature of the Bill needed only to be pointed out in order to have such a barbarous outrage averted. We have the assurance of the Government that the Bill, so far as its application to newspapers transmitted through other channels than the mail is concerned, will be inoperative.

NEW WESTMINSTER, WEDNESDAY, MAY 18, 1864.

THE BUTE MASSACRE.

With the very limited information we at present possess respecting this bloody and, so far as is yet known, wanton massacre, it would be premature to enter upon the merits of the case. We are too apt, in the first flush of excited indignation, to cry out for the utter and indiscriminate extermination of the savages, dealing out to them Lynch law instead of British justice. A knowledge of the treatment to which the ignorant and untutored Indian is often subjected in his intercourse with the white man ought to lead us to receive with caution the *ipse dixit* statement of the latter concerning an affray such as that which has recently transpired at Bute Inlet. We do not desire to excite sympathy for the Indians concerned in this bloody tragedy; for, so far as is yet known, they are entitled to none at our hands. But we hope to see the same impartial justice brought into requisition in dealing with the aborigines that we would desire to have meted out to ourselves. If, indeed, there is any difference, they are entitled to be treated more leniently in consideration of their untutored mind and their indistinct conception of right and wrong. Whatever may be the issue of this melancholy affair it should teach the Government the necessity of having some recognized and available power more immediately at their command for suppressing outbreaks and enforcing law. Had even one of the gunboats, which were sent out by the Imperial Government for service in this Colony, been stationed here the party which left on Sabbath evening might have left on Saturday morning, even allowing for the unaccountable tardiness displayed by the authorities of the neighboring Colony in apprising our Government of the affair, and two days in such an emergency may be of the most vital consequence. The alacrity with which Governor Seymour brought into requisition such means as he had at his disposal entitles him to the greatest praise; but the fact that after learning that the massacre had been perpetrated he was under the necessity of dispatching a steamer to another Colony for the means of transporting a force to the scene of the outrage ought to convince His Excellency of the propriety of having one of the gunboats stationed here. With an extensive coast peopled by many thousands of savage Indians, frequently committing depredations upon the whites who seek commercial intercourse with them or who may be engaged in exploring those portions of the Colony over which these people claim dominion, it is *essential* that His Excellency should have the means of promptly enforcing law and punishing crime constantly at his disposal. The Indians know very well that this Colony is totally unprovided with any military force; and a knowledge of that fact has by no means tended to render them more quiet and submissive. Those petty tribes—little more than mere remnants of tribes—residing in this more immediate vicinity are not likely to prove dangerous. With the loss of numbers and power they have lost that haughty national pride and fierce warlike spirit which characterizes the larger and more independent tribes. That desire for dominion and the disposition to resent the claims and intrusion of the whites has disappeared, and their highest ambition would appear to be to live at ease either upon the generosity or vice of the Anglo-Saxon race, to whom they so readily succumb. But it would be well to remember that in the interior and upon the seaboard are still to be found tribes comparatively powerful and warlike, the management of whom is a very different and often difficult affair. These Indians must be taught that our laws are just and impartial and *must* be enforced and respected. We have now an excellent opportunity of teaching this important lesson to one tribe not the least formidable and warlike in the Colony; and if the firmness and promptitude already displayed by Governor Seymour in this affair may be taken as a sample we have every prospect of seeing a better understanding between the Government and the native tribes than has hitherto existed. But, in order to teach the Indians to appreciate and respect British law our Governor must have *at hand* the means of promptly enforcing obedience; one of the gunboats must be stationed here for service in the river and on our coast. The very fact of its presence would exercise a salutary influence over the Indian mind throughout the country, and in the absence of any military force it would seem to be a necessity. Let us hope, therefore, that this melancholy and much-to-be-regretted outrage which has happened at so early a period in the new administration may be turned to a good, practical account by leading His Excellency to adopt those precautionary and preventive measures within his reach, and which are always so much better than anything in the shape of a cure.

JOSEPH SOREL.
New Westminster, March 3, 1863. ma4

The British Columbian.
NEW WESTMINSTER, WEDNESDAY, MAY 18, 1864.

"The Customs Amendment Ordinance 1864."

The substance of this Ordinance, as published in the *Gazette*, is as follows :—

I. From and after the passing of this Ordinance, the following articles shall be admitted into British Columbia free of all duties whatsoever, viz : all Machinery for Steam-boats, Grist Mills, or Quartz Mills, and all materials *bona fide* intended and used for Ship building within the Colony.

II. In case of dispute as to what articles shall be so admitted as aforesaid, the decision of the Collector, or other officer of Customs deputed by him, shall be final in each case.

IV. So much of the said Proclamation of the second day of June, A. D. 1859, as authorizes or purports to authorize the clearance of vessels in Vancouver Island for any port of British Columbia, north of Fraser River, or the payment of Customs duties of British Columbia in any part of Vancouver Island, shall be and is hereby repealed.

The effect of these charges, trifling as they may appear to the casual observer, will be important and beneficial to this Colony. The opening of a ship-yard is even now in contemplation, and with the best of wood on the spot, there will be no inducement for those engaged in the steamboat business to go to Victoria either to build or to repair. Indeed our advantages will be so great that we may reasonably hope ere long to build for export. The removal of duty from machinery will not be without its effect. We find that a grist mill is even now in course of construction in this city, and there is little doubt that to the admission of machinery duty free and the premium of £250 offered by the Government for the first grist mill, we are in some measure indebted for this important commencement in manufacture.

Perhaps no less important is the clause repealing that part of the old law which provided for the clearance of vessels and the payment of duty upon goods destined to our north coast, at Victoria. Who ever heard of such an arrangement as this? Whatever the *intention* of Governor Douglas was in granting such an extraordinary privilege the use which has been made of it is no secret. It afforded a most convenient cloak for the enormous illicit traffic which has been carried on between Victoria and the Indians along the coast, whereby they have been demoralized and our revenue defrauded. We doubt if ten per cent of the goods sent from there under the arrangement alluded to ever paid customs duty, and we are very certain that an enormous quantity of the vilest description of whiskey has been bartered off to the native tribes, the shipment of which from Victoria must have been winked at by the authorities there. All this will be put an end to by the above abrogation of the clause under which it was almost legalized, and all vessels hereafter found trading between Victoria and parts on our seaboard without being able to produce the proper papers from here will be liable to seizure and confiscation, and their owners to condign punishment. In order to put on effectual stop to a trade which has already assumed very considerable dimensions it will be necessary for the Government to keep a strict lookout upon the waters of the gulf for some time to come.

Later from Cariboo.

FIFTY OUNCES TO THE PAN!

Mr. Hard Curry arrived by the steamer *Reliance* on Monday, from whom we obtain the following information :—

The Wake up Jake Company had got down with their new shaft and struck it very rich. From one panful of dirt out of this shaft 58 oz. of gold was obtained ! This strike, as may easily be imagined, caused considerable excitement, especially amongst those owning adjacent claims.

The Welsh Company were taking out as high as 114 oz. a day.

The Cariboo Company were taking out 50 oz. a day. Their new shaft will probably be completed by this time and is doubtless yielding equally well.

The Beauregard Company were doing well, but the exact amount taken out we did not ascertain.

The Caledonia Company ditto.

The Tinker Company had their new shaft nearly down, and it was expected it would strike equally rich pay with the Welsh Co., being the same lead.

The supply of provisions was abundant, and prices had undergone little or no change.

The Hon, James Orr, member for Cariboo East, was taken ill with erysipelas in the legs on his way up. He arrived at Soda Creek after the steamer had left, and being most anxious to reach a place were he could obtain medical advice as soon as possible Mr. Curry drove him to Fort Alexander, overtaking the *Enterprise* there. Our informant represents his limbs as dreadfully swollen, up to the body, and considers his recovery very doubtful indeed.

THE THOMPSON RIVER BRIDGE.

The waters of the Thompson had risen very suddenly, fully three weeks earlier than usual, carrying away the centre pier of the bridge in course of construction by Mr. Spence. The next pier to the westward of the centre showed indications of giving way, and it was feared the Ferry cable and all would be swept off, thereby causing serious interruption to the traffic upon that important route.

Mr. Curry represents the weather as being delightful and the roads in excellent travelling condition.

The News from the East.

The news from the seat of the American war is nine days later, and is of a more sanguinary character than anything which has come to hand for some time. Grant, with 30,000 men, engaged Lee on the Rappahannock, and after fighting nearly a week with little intermission, and frequent repulses, succeeded in making himself master of the field. The loss on both sides is said to be very great : that of the Confederates is set down at 3,000 killed and 10,000 wounded and prisoners. It is believed that the killed and wounded on both sides will reach *forty thousand !* Although it is pretty clear, so far as one can judge by the Northern accounts, that the Federal arms gained a victory, yet it is equally clear that it was by hard fighting and at enormous cost.

The news from Europe is quite unimportant, if we may except the fall of Duppell, which was accompanied by very great loss on both sides.

The Bute Expedition.

Twenty-eight special constables, under the command of the Hon. C. Brew, Chief of Police, left this city on Sabbath evening on board H. M. Gun-boat *Forward* for the scene of the recent massacre at Bute Inlet. The men who comprise this party volunteered their services ; and had ten times the number been wanted there would have been no lack of men willing to go, but it was thought by the Government that it was not advisable to send a larger party at present. As the head quarters of the tribe to which the murderers belong is back in the interior, within about 60 miles of Fort Alexander, it has been decided to dispatch from above a party of about 50 men under the command of Commissioner Cox who, it is presumed, will meet the party sent *via* the Inlet somewhere near the Chillicoten settlement. If, on the other hand, Mr. Brew's party should come in contact with the Indians in the vicinity of the Inlet and resistance should be offered the gun-boat will return and report and the *Tribune*, with an ample force of marines, will be dispatched to that place. Our own opinion is that it is to be regretted the *Tribune* did not proceed with the *Forward* in the first instance ; as even temporary defeat in dealing with Indians is most fatal, and ought always to be carefully guarded against. Lord Gilford, Commander of the *Tribune*, is now in this city, awaiting, we presume, the result of the expedition. His Excellency Governor Seymour and suite were upon the wharf to see the party off, and manifested the deepest interest in the arrangements. As the vessel got under weigh the assembled throng on shore gave the party three hearty cheers. May they all return alive and well, bringing with them the 16 bloody rascals of whom they are in quest.

British Columbian Bible Society.

Our readers are aware that since the organization by the Rev. L. Taylor of the British Columbian Bible Society we have repeatedly furnished items of interest regarding its working and progress. We now call the particular attention of our up-country readers to the visit about to be made to them by Mr. James Hall, the joint colporteur of this and the neighboring Colony. Mr. Hall leaves for Cariboo to-day, *via* Douglas, and his business is to call at every house in all the towns and by the way, and offer for sale bibles and testaments furnished by the society at very low rates. His work is arduous, but will doubtless prove of great value in promoting the moral and religious welfare of the community ; and we therefore hope that all who can will aid and encourage him in his great and good work—the dessemination of bible truth without regard to sect or party. Mr. Hall is authorized to solicit and receive donations on behalf of the society—all such funds to be used by the General Committee here for the interests of the society in the Colony.

The Hyacks' Volunteer.

A meeting extraordinary of the Hyack Fire Company was held in their Hall on Saturday for the purpose of considering whether they should offer their services to the Government to aid in capturing the Bute murderers. Capt. Scott, in a few brief remarks, explained the object of the meeting and left the matter in the hands of the Company to act as they thought best. The following resolution was passed unanimously and forwarded to His Excellency the Governor :—

"*Resolved*, That His Excellency Governor Seymour be informed that in the event of volunteer aid being required by the Government for the purpose of bringing to justice the perpetrators of the massacre at Bute Inlet, this Company place their services at His Excellency's disposal."

The following reply was promptly returned ;

CAMP, 14th May, 1864.

SIR,—In reply to the resolution of the Hyack Company received this day by the Governor, offering their services to assist in capturing the murderers at Bute Inlet, I am directed by His Excellency to return you his sincere thanks for the prompt manner you have volunteered, and at the same time to inform you that he cannot complete his arrangements until he has conferred with the senior naval officer whom he expects shortly in H. M's ship *Tribune* from Victoria.

I have the honor to be, sir,
Your most obedient servant,
G. W. HOLMES, P. S.

Geo. C. Clarkson, Esq., Sec'y Hyack Fire Co.

Next day the following was received :

GOVERNMENT HOUSE, Sunday.

SIR,—I am directed by the Governor to inform you that as the expedition against the Indians is to be principally from Alexandria he will not deprive New Westminster of the valuable services of the Hyack Company. His Excellency at the same time trusts you will tender his thanks for their offer of assistance in the present emergency.

I have the honor to be, sir,
Your most obedient servant,
G. W. HOLMES.

Geo. C. Clarkson, Esq., Sec'y Hyack Co.

Public Meeting at Douglas.

A public meeting was held at Douglas on Monday for the purpose of affording their representative, the Hon. H. Holbrook, an opportunity of giving an account of his stewardship. The chair was occupied by Mr. Jesse. Mr. Holbrook delivered to them the reply from His Excellency the Governor to the address from the people of that district, and gave an able and succinct history of the late session of the Legislative Council, showing that the great opposition he had encountered in his endeavors to get a portion of the money collected upon goods passing over that route in the shape of tonnage dues, appropriated towards the improvement of Harrison Rapids was attributable to the influence of Victoria capitalists in the House, brought to bear in favor of the Yale route. The hon. gentleman was listened to with much interest, and at the close it was moved by Mr. Humphrey, seconded by Mr. Leipsett, and carried unanimously, "That the people of the Town and District of Douglas now give a vote of confidence to the Hon. H. Holbrook, and fully approve of all he has done during the late session of the Legislative Council." We will give a fuller report of the address on Saturday.

Arrival of Treasure.

No Express having come to hand from Cariboo since our last issue, we are unable to chronicle the arrival of any large amount of treasure. Dietz & Nelson's Express brought $7,000 from Yale and Douglas on Monday.

THE QUEEN'S BIRTHDAY.—Arrangements are being made for celebrating the 24th upon a scale hitherto unknown in these Colonies. The Indian department has been, very wisely, entrusted to W. E. Cormack, Esq., and it is expected that the tribes up as far as Lillooet and Lytton will send their representatives. It is not improbable that several thousand Indians will be assembled here on that occasion.

H. M. STEAM SLOOP "COLUMBINE," from Honolulu, arrived at Esquimalt on Sunday.

ROYAL GEOGRAPHICAL SOCIETY.—At a meeting of this Society, held in London on the 14th March, lectures were delivered upon this Colony by Col. Moody, R. E., and Lieutenant Palmer, R. E., also by Dr. Forbes, R. N., upon Vancouver Island.

DEPARTURE OF SIR JAMES DOUGLAS.—We learn from the Victoria papers that this gentleman sailed for Europe on Saturday. He was accompanied by Mr. Young and family.

TO OUR CITY SUBSCRIBERS.—As this impression commences the 2nd Quarter of the 4th volume city subscribers will be waited on during the present week.

THE STR. "RELIANCE" returned from Yale on Monday, having made a quick and successful trip although the water is nearly up to the most critical stage. The river has risen 40 feet at Yale, being within 7 feet of high water mark, and as high as it usually is at the middle of June.

THE STR. "LILLOOET" made her usual trip to Douglas this week, but did not go to Yale. She has had her wheel improved so as to give more power for the high water.

THE STR. "HOPE" returned from Douglas on Monday, having on board 12000 feet of white pine lumber from P. Smith & Co's saw mill intended for Victoria market.

THE STR. "CALEDONIA" will leave on Monday for Victoria carrying down a cargo of lumber. She will be employed in carrying lumber from Webster & Co's Mill to Victoria.

NO BILL.—In the case of McNeal, who was committed at Yale for assaulting Seymour, and who was taken to Lytton for trial, the Grand Jury returned "no bill."

CUSTOMS RECEIPTS for week ending Saturday May 14th, 1854 : Duties, £712 0 9 ; harbor dues, £8 5 10 ; headmoney, £16 8 0 ; tonnage dues, £114 3 0. Total, £850 17 7. Passengers, 82.

Municipal Council.

Town Hall, May 16th, 1864.

Members Present, the President, and Councillors Manson, Armstrong, Clarkson, Murray, Robson and Calder.

Minutes of previous meeting read and confirmed.

Several Committees reported.

It was decided to accept the offer made by the Hyack Company of their Hall for the use of the Council. Several resolutions were passed, but no business of general interest was transacted.

NEW MINISTRY.—Canadian exchanges brought out by last mail give the list of the new ministry which is as follows : Sir E. P. Tache, Premier —Receiver-General and Minister of Militia ; Hon. G. E. Cartier—Attorney-General East ; Hon. A. T. Galt—Finance Minister ; Hon. J. C. Chapais—Commissioner of Public Works ; Hon. T. D'Arcy McGee—Minister of Agriculture ; Hon. Hector Langevin—Solicitor-General East ; Hon. John A. Macdonald—Attorney-General West ; Hon. Alexander Campbell—Commissioner of Crown Lands ; Hon. M. H. Foley—Postmaster-General ; Hon. Isaac Buchanan—Chairman of the Committees of Council ; Hon. John Simpson (Niagara)—Provincial Secretary ; Hon John Cockburn—Solicitor-General West. The *Globe* thinks it won't satisfy Western Canada, and there is every probability of its being short-lived.

EDUCATION.

To the Editor of the British Columbian.

SIR,—Very many of your readers are much indebted to you for devoting so much space to and handling so ably the very important question of Education. How does the matter now stand ? Can you report progress, or has anything been gained by all that has been said or done during the past year or two ? The two competing candidates for the honor of representing this city and district in the Legislative Council made Education a prominent question in their addresses and speeches, and pronounced strongly in favor of a system at once, and that system to be on a non-sectarian basis. On that point there was an entire unanimity, but what have they done to redeem the pledges then made ? Tariffs and roads are very important questions in promoting the well-being of this Colony in its present transition stage, but how far is Education to lag behind ? Is the road to knowledge not to be mapped out, graded and kept in proper repair as well as the road to Cariboo if this is to be a country for settlement as well as for mining ? The views of the Government on the system (if any) of education to be established and supported at the public expense are anxiously looked for. For surely the public may without presumption claim some right to know, after pronouncing so frequently, and definitely on the matter, whether the Governor is in favor of the sectarian or non-sectarian system, or a mixture of both. If one religious sect or denomination is getting a share of the grant recommended by the Council the rest should know of it that they may send in their applications. With one exception the prorogation address of His Excellency was an admirable one considering the brief period of his residence in the country ; but some ask, with a little anxiety, why should that one exception be such a vital matter as the system of Education. You will remember the Governor said—"I especially thank you for the additional sums you have given for schools and hospitals. The donation for the latter purpose shall, as you desire, be equally divided between Cariboo and New Westminster." The destination of the hospital money is clear enough, and it would be even more satisfactory to know if the school grant is to be devoted to public or non-sectarian schools or to be frittered away upon the hole-and-corner private schools of particular or favored churches. At all events some action should be taken even at the eleventh hour in this important matter, perhaps some provisional or temporary arrangement made that may bring the blessing of education within the reach of all. Parents having children of school age did the best they could in the circumstances over a year ago, and got all the pecuniary assistance they asked from the late Governor. That temporary expedient or experiment has now ceased and the school then started still goes on, but without any one to look after it or be responsible for its management. The committee then appointed by the parents to look after the school for the year have turned it adrift, ceased to act, and have never yet reported to those appointing them A few Church of England exclusives have started an opposition and denominational school, and if care is not taken the result may be that both teachers may be "starved out," or else the fees made to range so high owing to the division of such a small number that parents may be unable to afford their children the benefits of either, and thus bring about the former state of things which was borne with so quietly by some until others undertook the work which they so long neglected and which they are doing their little best to frustrate. It is lamentable to think that there should be division so soon where union is so desirable, and in present circumstances at least would be so beneficial to all concerned.

It is, therefore, earnestly to be hoped that the Governor will speedily give some attention to this question and bring order out of confusion, and comply with the wishes of the vast majority of the people in liberally supporting public schools with public money, and allow denominational interests to take care of themselves. I would most respectfully suggest that the Government should draw up and issue some temporary regulations for the management of schools receiving public money, and that a Superintendent or committee of some kind should be nominated to take charge of such school to test the qualifications and capabilities of teachers, to see that the regulations or rules are duly observed, the school efficiently and properly conducted, and act generally as a medium of communication between the Governor, the teachers and the public.

Hoping that you will not allow attention to be diverted from the main question—*what is now best to be done* for the education of our children—by the raising of side issues,

I am, &c.,
PRO BONO PUBLICO.

P. S.—Do you know anything about the school at the Camp ? It is said to be under the sole control of the Archdeacon, and liberally endowed by the Government. Everything about it may be all right and proper, but if so it can do no harm for the public to know how the matter really stands ; and if not, then publicity may purify. It is well to let the wholesome air of public opinion properly permeate public proceedings.

EXECUTIVE COUNCIL.—There was a meeting of this body at the Camp yesterday.

MARRIED.—On Thursday the 12th inst., at Holy Trinity Church, in this city, by the Ven. the Archdeacon of British Columbia, JONATHAN HAY BROWN to SARAH BAYLISS, both of this city.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism."—*Times*, June 11, 1862.

"A triumph of ingenuity."—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely-finished piece of mechanism we have never seen."—*Standard*, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8, 1862.

Watches, adapted for every class, climate and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre Seconds, Keyless, Astronomical, Reversible and Chronograph, from 200 guineas to 3 guineas each.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alternatives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmetical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency Diarrhœa and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disasterous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who ere seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fevers of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symptoms
Colics	Indigestion	Tic Douloureux
Constipation of the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Complaints	Venereal Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT,

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action af purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands,	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiego-foot.	Lumbago.	Tumors
Corns (soft).	Piles.	Ulcers.
Cancers,	Rheumatism.	Wounds.
Chilblains,		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. au15
